Manufacturer of Architectural and Mechanical Louvers

L & L Louvers manufactures steel, stainless steel and aluminum architectural and mechanical wall louvers, penthouses, grills and screens, door louvers, and Acoustical Louvers of both parabolic and airfoil design, are installed all across the U.S. in major installations.

BACKGROUND

L & L Louvers, Inc. was established in August 1990 by three individuals who had over a hundred years of collective experience in the industry, with backgrounds of sales, design and production. Our equipment is technically the most modern and up to date available. We employ full line of automated CNCbrakes and presses.

PRODUCTS

L & L Louvers manufactures steel, stainless steel and aluminum architectural and mechanical wall louvers, penthouses, grills and screens, door louvers, and Acoustical Louvers; of both parabolic and airfoil design, are installed all across the U.S. in major installations. We make curved and round louvers from both aluminum and steel, we also make radius head, triangular or parabolic designs. Many of our products have been tested by AMCA and/or Western Acoustical Laboratories.

SERVICES

We will provide you with complete service in the areas of design, engineering and shop drawings. We can supply any finish specified and will color match to any sample provided. Most quotations are provided within the working day requested. Although our company is small in size, compared to our competition, we are constantly called upon to get the special or rush jobs out quickly. The unusual design is common, not special.

QUALITY

It is our intention to never ship a product from our factory that has not been completely inspected. We strive to begin our quality control at the inception of the order and carry through to paint and shipping.

PROJECTS

Some of our jobs can be seen on following pages. Among them, The Southern California Gas Co., Anaheim Ice Center, Hilton Hotels and Hampton Inns, Walgreens Pharmacy, Univ. of California-Irvine, Santa Monica College, Cisco Systems Center, Microsoft Inc., Novellus Corp., Disneyland and Disney Studios, Hyperion Water Treatment Plant and Mission Hill Hospital. Just to name a few.
